

Testimonials from the Feering's parent community – January 2021

“We just wanted to connect with you to say we have been so impressed with the work the teacher has been doing with our child and the additional challenges for the week she provides. Everything is well explained and makes sense and watching what the teacher does in the lessons certainly gives us confidence to continue the learning at home. She is always very responsive to messages and any work posted on Dojo and is specific in her feedback. I can't imagine how hard she must be working right now and we really appreciate it.”

“I wanted to say really well done and thank you. You have guided the staff and students through a logistical nightmare with ease and conviction. But mostly with care and safety. Through your leadership and the care of your staff our children have remained in lessons with their teachers and friends. Thank you.”

“Just a quick note to say how impressed we are with the way Teacher 1 and Teacher 2 have taught the children this week. Thank you all. PE lessons are also very much appreciated. Three happy children here.”

“I *know* how busy you are! Whilst writing, I'm sure you'll be pleased to hear that my child is enjoying the new online setup and so far it has been fantastic, thank you so much to everyone at Feering for the hard work put in to this. Really hope we can all pull together and end this soon - children should be in school.”

“Thank you and all your team for keeping my children safe, on top of all the remote learning.”

“I just wanted to let you know how impressed I have been with the remote learning/online classroom that’s been put in place by the class teacher for her class. She’s done an amazing job and everything has been set up in such a great way to make it as easy as possible for the children (and parents) to use. I wanted to send you this positive feedback at this difficult time.”

“I just want to say THANK YOU my child woke me this morning to tell me that she is going to be making a penguin next week. She then showed me a bird feeder she had made and a car from boxes (it made me realise I’ve hardly had time to talk to her this week) You must have so so much going on but clearly still care so much about all the children. We are very lucky that they feel safe and secure at school in this very unsettling time.”

“Great first few weeks. Incredibly proud of all the class for adapting so well, and such an amazing feat by the school and teachers to have put it all together at such short notice.”

“Thank you, I’m really liking the online learning and I’m happy we can still do learning even though we can’t go to school!”

“I just wanted to say a huge well done and thank you for how well the online learning is going. It must be incredibly difficult for you teaching this way but from what I can hear you are doing a good job at keeping them all on track and engaged :)”

“ Just wanted to message you to thank you for all your efforts this week. It’s great what you have achieved in such a short time and the children are loving it and I am finding juggling home schooling and working from home a little bit easier because of it all.”

“We just wanted to give you all some feedback towards the end of the first week of lockdown teaching. It’s been brilliant so far from our point of view. I don’t know how you are all keeping up with everything but the structure is really working well for our child. He is staying mostly engaged throughout the day and is enjoying his lessons. There are a few points where he is struggling to concentrate but we think this is normal as he is getting used to this type of learning. So massive thanks for putting everything in place and making it so engaging, we hope you are coping ok with the situation.”

“I appreciate the pre-teaching online before school every morning and how much this has helped my child.”

“I am pleased with how much my child is engaged with the home learning (as everything is differentiated).”

“Really impressed with how this is being done. My child is very much enjoying it.”

“Thank you for the revised timetable that makes it much easier for my child and I who are doing both in school and home learning.”

“Thank you for today. My child was sad this morning and had a few tears but the calls have really helped.”

“Thank you very much for today. I'm pleased to say my child listened intently, so you obviously captured his interest!”

“That was a great first day and already so much better than the first lockdown. My child sat and did the first stuff independently, which was great and a real help for working parents. Thanks for all your efforts getting things up and running so quickly! The school did well to be prepped in advanced for this eventuality.”

“We would like to thank Teacher 1 and Teacher 2 for their superb work this week. We know it hasn’t been an easy week but wanted to pass on our gratitude,”

“For the very first time I watched a teams recording back last night (couldn’t sleep!) and it was so lovely to see my child so focused and taking part. She really seems to know what bits she wants to work on when she gets home. She was showing me a division method last night with circles that I’d never seen before! And improving sentences to make them more interesting! THANK YOU for your amazing work it can’t be easy.”
